COMMENTS:

You should not send toxic nuclear waste
close to several wilderness study areas, in order
to create an unsafe waste dump at Yucca
Mountain. A good alternative is to abandon altogether
the misguided Yucca Mountain project.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).
